

KhaneClear

Plentiful Land Initiative

Khane will clear it.

Whether the project is historically significant, environmentally sensitive, culturally important or in a non peaceful area, we can demolish.

Since the founding of Khane Industries, no opposition from community, government or terrorist group has been able to halt a KhaneClear project.

KhaneLobby and other initiatives can clear the way to begin work in controversial projects. Protestors, endangered species or art work can be safely rezoned or cleared if necessary.

We use the most powerful equipment available, manned and unmanned for the safety of our employees and to expedite clearing, so you can begin anew.

- ▶ Armoured Heavy Equipment Available
- ▶ Airborne and orbital options
- ▶ Extreme solutions for extreme problems
- ▶ MediaShield Compatible
